Health is a critical part of one's health and well-being. A decent balanced diet keeps the body busy and fit.

The course teaches applicants in the fields of diet, food, wellness, and management. Applicants can learn expertise and skills in food science, cooking, meal planning or preparing, advances and technologies in modern balanced meals, special diets, catering, and cafeterias.

The course focuses on learning nutritional science, raising knowledge about nutrition, its function, and benefits, interpreting nutrition, people's nutrition needs, educating others, and applying the nutrition curriculum.
